OFFICE OF THE ASSISTANT ENGINEER, HEADQUARTER RANGE, MYSORE.

Notification dated 5th September 1937.

1. Sealed tenders will be received at the Office of the Assistant Engineer, Headquarter Range, Mysore, up to 12 NOON on 25th September 1937, for constructing Police Station Building in the newly proposed Circle in Doddapet Road, Mysore.

2. Tenders in the prescribed form obtainable from the Office of the Assistant Engineer, Headquarter Range, Mysore, on payment of rupee one for each form, should be addressed to the Assistant Engineer, Headquarter Range, and should be superscribed as "Tender for constructing Police Station Building in Doddapet Circle, Mysore." The name of the tenderer should also be superscribed on the sealed cover.

3. Each tender must be accompanied by a deposit of Rs. 1,500 only in cash or Government Security, Municipal Debentures, Post Office Cash Certificates, (at cash payment value at the time of deposits and not face value) as earnest money. The earnest money of the successful tenderer will be retained as cash security for the due fulfilment of the contract. (Cash amount will not carry any interest.) In case of the acceptance of the tender, an addition of the five per cent of the estimated amount as security deposit should be paid at the time of executing the agreement in the Public Works Department Form.

4. The tenders will be opened in the presence of such tenderers who wish to be present on 20th September 1937 at 4 P.M. The final acceptance of the tender will rest with the Superintending Engineer who does not bind himself to accept the lowest or any tender, or to assign any reasons whatever, for the rejection of any.

5. The name of the successful tenderer will be posted on the Notice Board in the Assistant Engineer's Office in due course. Within eight days of the acceptance of the tender, the successful tenderer will be required to execute the agreement in the departmental schedule contract form for the due fulfilment of the contract.

6. Failure to comply with the condition 5 above or to agree to carry out the work in accordance with the specifications and [illegible] agreements in force will entail forfeiture of the earnest money.

7. Copies of contract documents, estimates and drawings may be seen at any time at the Office of the Assistant Engineer, Headquarter Range, Mysore, on all working days between 11 A.M. and 5 P.M.

8. Specific rate should be given for each item in the Schedule, and the rates should be in rupees, annas and in multiples of three pies and expressed in words and figures.

9. Any rates or lumpsum amounts for the items not called for, if tendered by the tenderer, will not be taken notice of. The rates tendered should include all such lumpsum items.

10. No alterations which are made by the tenderers in the contract documents in the nomenclature of the sanctioned sub-heads will be recognised and if corrections are made the tenders will be liable to rejection.

11. There should be no corrections or erasures in the tenders in the rates of items and any corrections made in the rates should be attested to and the number of corrections, if any, in each page noted at the foot of the same by the tenderer.

12. No reference should be made to the Public Works Department current schedule of rates.

13. On the event of the tender being submitted by a firm, it must be signed separately and severally by each member thereof or in the event of absence of any partner, it must be signed on his behalf by a person holding power of attorney authorising him to do so.

14. When once the rates tendered have been accepted, they will not be revised under any circumstances. In regard to items of work not tendered, the rates to be proposed by the Assistant Engineer, Headquarter Range, Mysore, and approved by the Superintending Engineer shall be final and legally binding on the tenderer.

15. The quantities as estimated are only approximate and are liable to alterations, omissions, deductions or additions, at the discretion of the Assistant Engineer or his representative. The tendered rates will hold good for any quantity whether higher or lower than those estimated for.

16. The work should be completed as per departmental specifications for different items and handed over to the Public Works Department by the end of April 1938, failing which the Assistant Engineer may, at his discretion, levy a penalty up to Rs. 50 per day, which will be recovered from the contractor's outstandings for the period exceeded by him till the work is completed and handed over.

17. In all matters of dispute of any kind, not specially provided for in the agreement or of rates, penalties, measurements, quality of work, etc., the decision of the Chief Engineer shall be final and legally binding.

18. The earnest money of rejected tenders will be returned on surrender of the receipts originally granted, along with an application to the Assistant Engineer, Headquarter Range, Mysore.

19. No claims for damages for delays caused by officers of the department in the execution of the work will be considered, whatever may be the reason for such delays. Contractors should bear this in mind when tendering for work. Extension of time due to delays caused by the departmental officers will however be considered on the merits of each case.

20. The contract should not be sublet.

21. All materials, tools, plant and machinery, that will be supplied by the Assistant Engineer, in the interest of the work, shall be accepted by the tenderer at the rates fixed by the Assistant Engineer and the tenderer will pay the hire, etc., on machinery at the prescribed per cent per annum of the booked value of the tools and plant supplied from the date of taking over of tools and plant from the Stores to the date of return to the Stores, the dates considered being the dates of acknowledgments of the vouchers in each transaction.

22. The contractors should arrange for the payment of Royalty and Tolls.

Note.—(A) The contractor should at his own cost—

(1) provide rods, stakes, ropes and labours required in setting out the works,
(2) provide all necessary scaffolding, centering labour and appliance for hoisting,
(3) provide mortar mill and shed to keep materials under cover and also for workmen,
(4) arrange for protecting work during inclement weather,
(5) supply requisite temporary lights, water cisterns, water-shoots, coverings to masonry, tile pieces to steps, sieves, parahs or measures, shoring and other requisite protection during the progress of the work,
(6) supply all water required for work and workmen and shall provide latrines, drainages, etc.,
(7) clean away all dirt, rubbish, superfluous materials and debris as they accumulate,
(8) provide arrangements for pumping and bailing from excavations and foundations, wherever and whenever necessary with their own pumping apparatus, including necessary leading drains, slump pits, etc.,
(9) wash floors at completion and leave the whole of the work and premises in a clean and orderly condition, etc.,
(10) afford facilities to any other parties employed upon the work, so that their work may proceed during the progress of the contract and give such persons the use of ordinary scaffolding and ladders.

Note.—(B) It is the business of the Contractors to make their own arrangements for the quarries and supplies of materials.

23. The rates for wood-work for all works quoted should be based on the rates of the departmental supply as noted below. Only Mysore Teak, selected from the Mysore Government Depots must be used.

24. Work to the extent of Rs. 5,000 will have to be carried out each month.

Prevailing Government rates at Mysore Forest Depot for Mysore teak is as follows :—

	Rs.	a.	p.	
(1) Selected 1st class logs	2	8	0	per c.ft.
(2) Cut scantling of sizes 3″×4″ ..	3	4	0	,,
(2)(*a*) Do 3″×5″ to 4″×7″ ..	3	12	0	,,
(3) Planks 1″ to 1¾″ to required sizes ..	4	8	0	,,

Abstract of estimated quantities for constructing Police Station Building in Doddapet Circle, Mysore.

No.	Items of work	Unit	Rate	Quantity	Cost
			Rs. a. p.		Rs.
1	Earthwork excavation for foundation in hard gravelly soil and filling in basement with watering and tamping, etc., complete ..	C.yd.	..	491	
2	Filling in foundation with broken granite stone jelly concrete in lime mortar, in layers not more than 6″ thick including watering and tamping	C.ft.	..	2,795	
3	Filling in foundation with size stone in lime mortar including through bonds at every 6 feet	,,	..	7,420	
4	Size stone in lime mortar for basement with through bond stones 6 feet apart including all quoins neatly dressed 2″ wide ..	,,	..	2,542	
5	Burnt brick in lime mortar for superstructure ..	,,	..	1125	
6	Burnt brick in chunam mortar for archwork ..	,,	..	52	
7	Burnt stone slabs 6″ thick two lines dressed and fixed on mortar bed	S.ft.	..	949	

No.	Items of work	Unit	Rate	Quantity	Co
			Rs. a. p.		Rs.
8	Cement concrete slabs (1 : 2 : 4) including fixing on mortar bed	C.ft.	..	536	
9	R.C.C. pillars $1\frac{1}{8}$ feet dia., including base and capitals as per design complete	Each	..	27	
10	(*a*) Providing and fixing T. W. doors, of frames 3″×5″ without bottom sills having fully panelled shutters $1\frac{1}{2}$″ thick with T. W. rectangular ventilators on top including superior rim lock with handles, hinges, hooks, etc., complete	S.ft.	..	400	
	(*b*) Providing and fixing T. W. door with 1″ round iron bars; shutters 2″ thick with iron fixtures for lock-ups as per design and specification complete	,,	..	90	
11	Providing and fixing T. W. windows with frames (3″×5″) and $1\frac{1}{4}$″ thick shutters, $\frac{1}{3}$ panelled and $\frac{2}{3}$ glazed with rectangular ventilators on top including $\frac{3}{4}$″ thick round iron bars, bolts, nuts, etc., complete	,,	..	150	
12	Providing and fixing rectangular T. W. ventilators with 1″ thick round iron bars with expanded metal fixed outside with T. W. panelled shutters in two halves fixed inside complete	,,	..	42	
13	Xmet partition with burnt brick in cement mortar with xmet at every third course including chunam plastering complete ..	,,	..	1,236	
14	Providing and fixing T. W. door with 3″×4″ frames and shutters of ply wood with T. W. frame for shutters including springed hinges, draw bolts, etc., complete	,,	..	24	
15	Providing and fixing R. S. girders of B.S.S. (tested) including hoisting and with one coat of anti-corrosive paint, etc., complete	Cwt.	..	123·4	
16	Boxing up girders 14″×$5\frac{1}{2}$″, 12″×5″ and 9″×4″ with terrace bricks in cement mortar and reinforcements with galvanized steel-tex tied from above and chunam plastering white or colour washing, etc., complete ..	R.ft.	..	553	
17	Roofing with R.C.C. of broken granite jelly (1 : 2 : 4) and brick, the reinforcements being $\frac{3}{8}$″ bars for spans less than 10 feet placed at $4\frac{1}{2}$″ apart centre to centre and with negative moment and distribution bars and 2″ cross and longitudinal joints and with 3″ layer of surki concrete and then 3″ of cement stone jelly concrete and $\frac{1}{2}$″ thick cement plastering including $\frac{1}{4}$″ thick coloured water proof cement at top, surface finished smooth and cut to tile pattern, etc., including ceiling, plastering, covering as per design, white washing, etc., complete	Sqr.	..	51·58	
18	Constructing plain cornice as per design alround the building	R.ft.	..	369	
19	Plastering with chunam mortar smooth including rounding of corners if necessary and the plaster on outer face being ground with yellow ochre to a cream tint complete ..	Sqr.	..	103·89	
20	White and colour washing two coats ..	,,	..	10[illegible]3	
21	Providing and fixing ornamental C.I. railings 2′—4″ high including the thickness of turned T. W. railing on top as per design complete	R.ft.	..	14	

No.	Items of work	Unit	Rate	Quantity	Cost
			Rs. a. p.		Rs.
22	Providing and fixing steel collapsible gate with angle iron frames and with locking arrangements, etc., including two coats of aluminium paint complete	S.ft.	..	54	
23	Flooring with 1½" cement concrete (1 : 2 : 4) jelly to be of granite metal over 3" lime concrete with topping of red cement ¼" thick finished with ironite 2½ lbs. per square and cut to tile pattern where required with all corners rounded, etc., complete	Sqr.	..	38·26	
24	Cement pointing to basement	,,	..	6·48	
25	Painting two coats with superior de-Lux paint or other approved tint	,,	..	14·39	
26	Cement plastering walls in latrine	,,	..	1·60	
27	Coping to compound wall in rear 1⅛ feet thick with burnt brick in chunam mortar, and plastering, white or colour washing, etc., complete	R.ft.	..	40	
28	Providing T. W. stair case as per design during execution 4½ ft. wide and 1 foot tread with ornamental turned T. W. railing with T. W. newels, etc., complete including varnishing two coats	Per tread.		L.S. 60	
	First Floor.				
1	Burnt brick in lime mortar	C.ft.	..	5,129	
2	Do for arch work	,,	..	40	
3	Cement concrete slabs (1 : 2 : 4) including fixing on mortar bed	,,	..	344	
4	R.C.C. pillars 1⅛ ft. diameter including base and capitals as per design and specification complete	Each	..	27	
5	Providing and fixing T. W. door of frames 3"×5" without bottom sills having ⅓ panelled and ⅔ glazed shutters 1½" thick with T. W. rectangular ventilators on top including superior rim locks with handles, hooks and other iron fixtures complete	S.ft.	..	349	
6	Providing and fixing T. W. windows with frames (3"×5") and 1¼" thick glazed shutters with rectangular ventilators on top including ¾" thick round iron bars with bolts and nuts, etc., complete	,,	..	150	
7	Providing and fixing rectangular T. W. ventilators with playing shutters including iron fixtures complete	,,	..	12	
8	Xmet partition wall with burnt brick in cement mortar with xmet at every third course including chunam plastering complete ..	,,	..	384	
9	Providing and fixing R. S. girders of B.S.S. (tested) including hoisting and with one coat of anti-corrosive paint, etc., complete	Cwt.	..	108½	
10	Boxing up girders 14"×5" and 12"×5", etc., with terrace bricks in cement mortar and other details as explained under ground floor	R.ft.	..	647	

No.	Items of work	Unit	Rate	Quantity	Cost
			Rs. a. p.		Rs.
11	Roofing with R.C.C. and brick (R.C.C. to be of broken granite jelly 1 : 2 : 4) with $\frac{3}{8}$" dia. reinforcement bars for spans less than 10 feet, placed at 4½" apart centre to centre and with negative moment and distribution bars and 2" cross and longitudinal joints and with 3" layer of surki concrete and then 2" of cement stone jelly concrete including two courses of flat tiles and ½" thick top and ceiling plastered and white washing with coving as per design, etc., complete ..	Sqr.	..	36·83
